The interim condensed financial statements for the three months ended 31 March 2009 have been prepared in accordance with IAS 34 - Interim Financial Reporting.

The interim condensed financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's financial statements as at 31 December 2008.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The interim condensed financial statements have been prepared on a historical cost basis, modified to include the measurement at fair value of investment held at fair value through income statement.

The accounting policies adopted in the preparation of the interim condensed financial statements are consistent with those followed in the preparation of the Company's financial statements for the period ended 31 December 2008, except for the impact of the adoption of the new standards and accounting policies noted below:

New Standards adopted:

The following are the new standards adopted by the company during the current period:

- IFRS 8 Operating Segments
- IAS 1 Presentation of financial statements (Revised)

The application of the above Standards has resulted in amendments to the presentation of the interim condensed financial statements.

Investments held at fair value through income statement

Investments held at fair value through income statement are investments designated at fair value through income statement at inception. For investments designated as at fair value through income statement, the following criteria must be met:

- The designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the assets or liabilities or recognising gains or losses on a different basis, or
- The assets and liabilities are part of a group of financial assets, financial liabilities or both which are managed
 and their performance evaluated on a fair value basis, in accordance with a documented risk management or
 investment strategy.

These investments are initially recorded at fair value. Subsequent to initial recognition, these investments are measured at fair value. Fair value adjustments and realised gains and losses are recognized in the interim statement of shareholders' comprehensive operations.
